## SEASONS

# WINTER - December to February

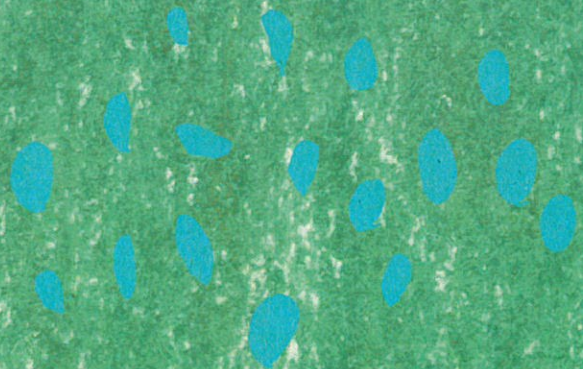

Winter is the coldest season, days are short  
and it sometimes snows in parts of the UK

# SPRING - March to May

During Spring it gets warmer but it often rains too. Plants and flowers like this and begin to grow again

# SUMMER - June to August

Summer is the warmest season, the days are long and people spend more time outside

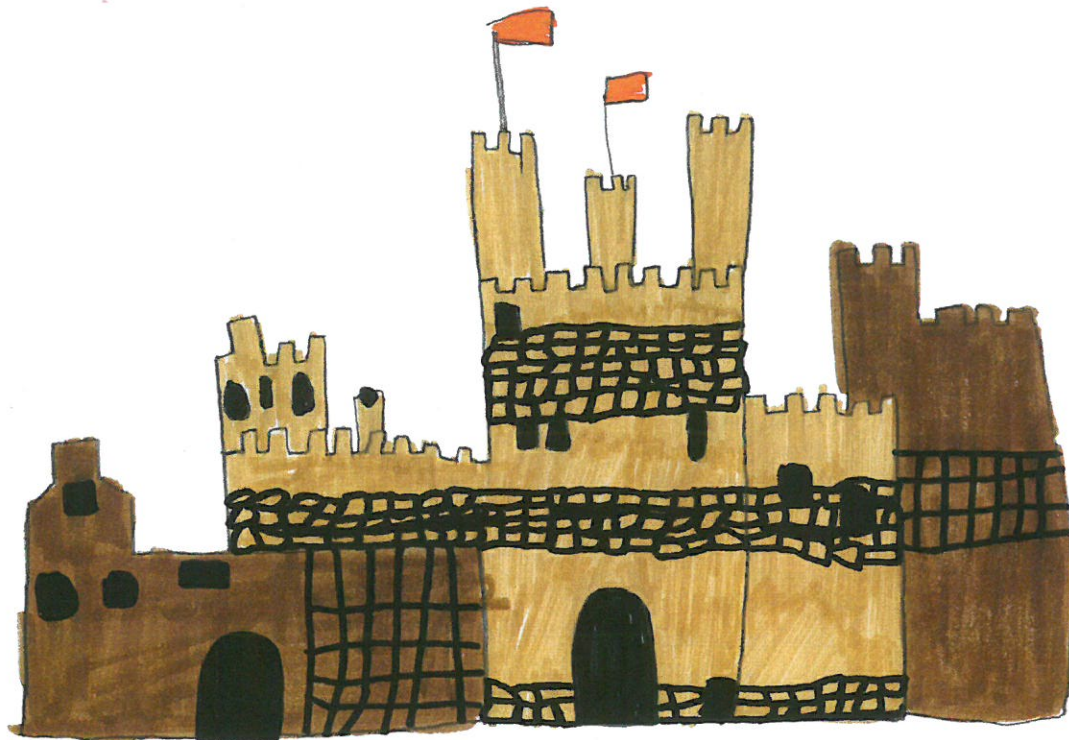

# AUTUMN - September to November

In Autumn it gets colder, there is more chance of rain and wind too. Lots of the trees start to lose their leaves.
